

PATIENT INFORMATION

SUPPORT THE RADIOGRAPHY STRIKE

We are carrying out a **strike** at this trust.

We would rather not strike and interrupt your care, but the government are not listening. **Our workforce is in crisis and you, our patients, deserve better.**

STRIKE AIMS

You deserve more radiography professionals which will lower waiting lists. This will only happen when the government improves pay and conditions. Learn more here: www.sor.org/iapatient

We hope you can support us so we can continue to be at the heart of patient care.

WHO ARE WE?

The Society of Radiographers (SoR) is the trade union and professional body supporting those working within radiography. Have **YOU** had an x-ray, MRI or CT scan, ultrasound, breast screening, or radiation therapy? As a patient going into hospital, **9 out of 10 of you will be seen by a member of the radiography workforce.**

MORE INFO

To learn more about the SoR please visit: www.sor.org
